

How To Transfer A Domain OUT

All Other Domains (besides .uk) Transfer Out:

1. Login to your CHI account at <https://chi.uk2.net/>
2. From inside your account click the Domains tab off to the left, then click on the transfer tab towards the top of the page.

3. You will need to find your domain and click Unlock domain button, then select the Send EPP/Auth Code button. You will then be prompted to send the EPP/Auth code to the Registrant email address and the confirmation to the Admin email address

Send Auth Code

Registrant Email Address

Admin Email Address

IMPORTANT - Both the registrant and admin email addresses should be set to yours in order to complete the transfer process successfully

[Cancel](#) [Send](#)

4. You will then need to provide your new hosting provider with that EPP/Auth code. Once they have processed that code a confirmation email will be sent to your admin email address. If this is not replied to, the domain transfer will fail.

If you have any questions or concerns during this process contact our technical support team and they will be happy to assist you with transferring your domain.
