Before you start

You will need to login to your Google Analytics account and get your tracking ID. It can be found the **Google Analytics account home page**. You do not need any other information.

Step 1: Go to the home page

Click **Manage**

Step 2: Click the Analytics button

Click the **Analytics button**. Enter your **Google Analytics Tracking ID**. Click the **Save button**.

IMPORTANT: DO NOT PASTE ANYTHING EXCEPT THE TRACKING ID. Do not follow any other instructions from Google or elsewhere about adding scripts to page headers.

Do not paste anything into the **tracking script field**.
