Changing your password is easy once you have logged into your CHI account with your username and password.

Step 1: Access the personal information page by clicking on the “account” tab on the left hand side of your screen - as represented by the icon below.

Step 2: Click on the “Personal Details” tab at the top of the page

Step 3: Enter your current password and the new password that you would like to use into the appropriate fields in the form provided.

A screenshot of a web form titled "Change Password". It contains three input fields: "Current Password", "New Password", and "New Password (again)". Each field has a small eye icon to its right. The "New Password" field has a strength indicator on the right that says "Average strength" with a yellow bar. At the bottom of the form is a blue button labeled "Update Password".

Step 4: Click the “Update Password” button once you have entered all the necessary information.

You have now successfully updated your password within your CHI account.
