

How To Merge Accounts in CHI

This article will outline the process of merging two CHI accounts under one main login. If you have domains on multiple UK2.net CHI accounts it can be confusing when remembering which domains are connected to which username. In this case, it is best to merge all of your related accounts into one account.

To merge your related accounts:

- [Step 1: Login to your UK2 CHI account at chi.uk2.net through the account you would like to have as the new main account.](#)
- [Step 2: Select the My Account section](#)
- [Step 3: Select Moving Services](#)
- [Step 4: Select Choose Account.](#) If this option is not available, select "Merge another account".
- [Step 5: Enter the username and password of the account you would like to merge in the appropriate boxes.](#)

Step 1: Login to your UK2 CHI account at chi.uk2.net through the account you would like to have as the new main account.

The image shows a login form for the CHI Control Panel. It features a title "Login to the CHI Control Panel" at the top. Below the title are two input fields: "Username" and "Password". At the bottom right, there is a blue "Log In" button and a link for "Forgot Password?".

Step 2: Select the My Account section

Step 3: Select Moving Services

Step 4: Select Choose Account. If this option is not available, select "Merge another account".

Step 5: Enter the username and password of the account you would like to merge in the appropriate boxes.

Click "Check Services" and then click "Merge Account". Repeat this if you have multiple accounts to merge.

You have now successfully merged the accounts.

If you encounter any errors or problems within these steps need assistance with usernames and/or passwords for another account, please contact our Technical Support Department either through chats, phones or by submitting a ticket through the support section of your CHI account. Our experienced techs will be happy to help resolve any issues you may encounter.
