

How To Set Up A VPN In Windows 7 PPTP

The following steps will help you setup your VPN in Windows 7.

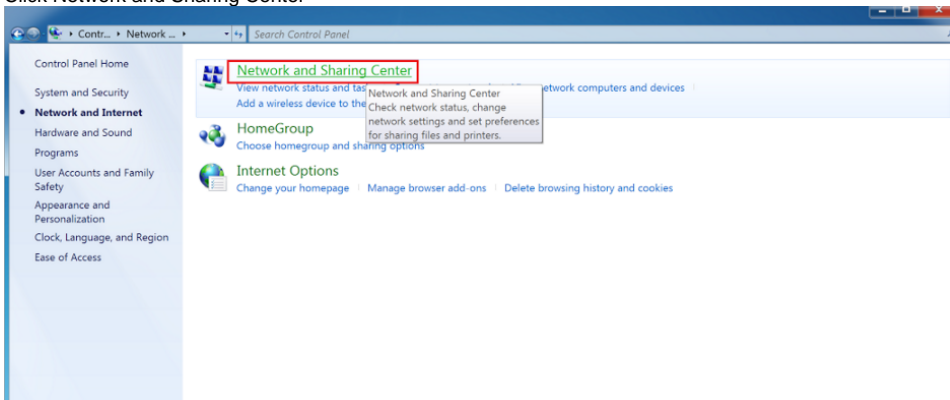

1. Open up Control Panel by clicking Start then Control Panel

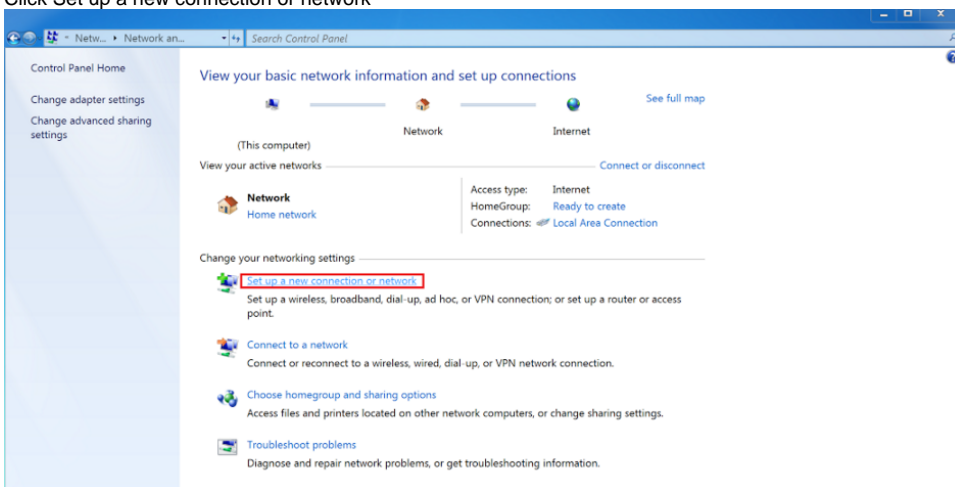

2. Click Network and Internet

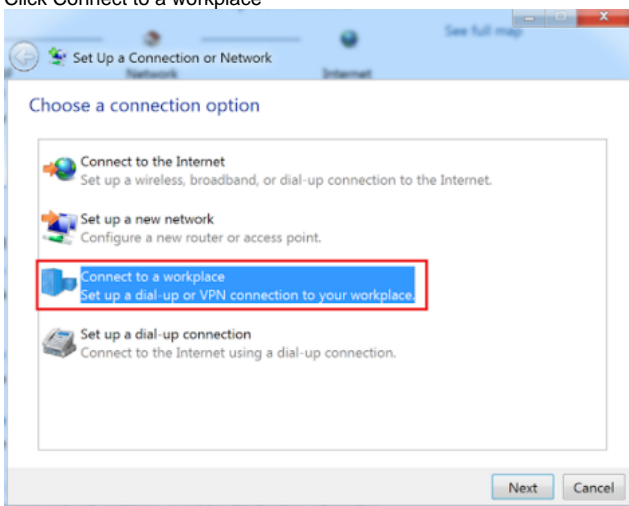

3. Click Network and Sharing Center

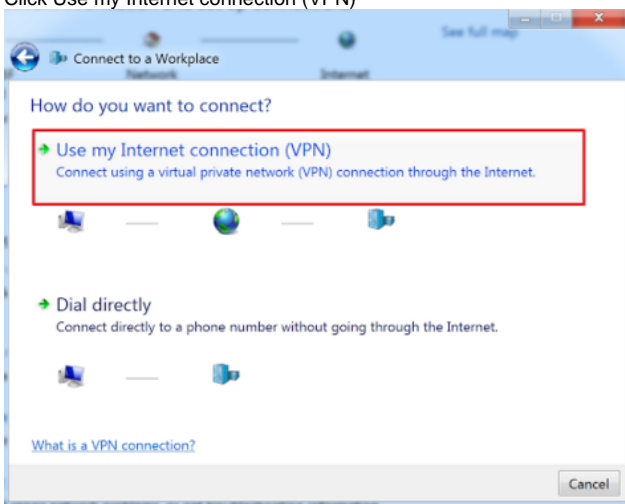

4. Click Set up a new connection or network

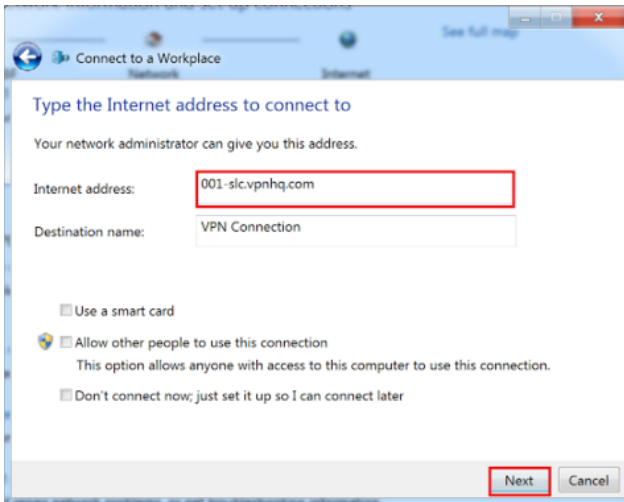

5. Click Connect to a workplace

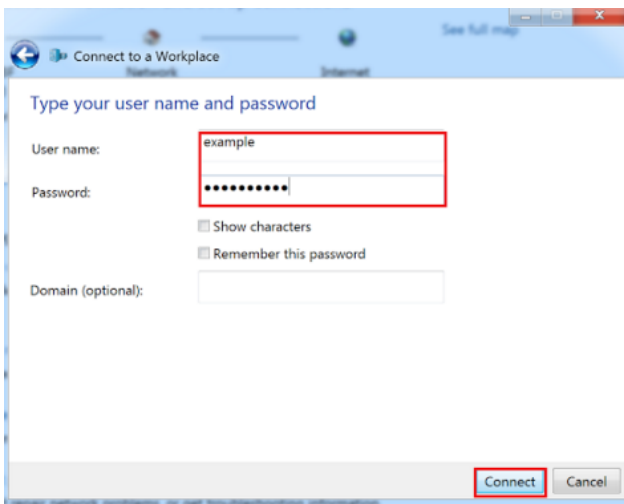

6. Click Use my Internet connection (VPN)

7. Enter in "Internet address" your VPN address. In this example it is 001-slc.vpnhq.com, then click Next

8. Enter your username and password and click Connect

9. You have Successfully setup your VPN on Windows 7.
